

# **Lighten your local association's paperwork load.**

## **Set-up automatic Electronic Funds Transfer today!**

ISEA's Electronic Funds Transfer (EFT) is a quick and easy method to pay local, state, and national association dues; special funds, and PAC contributions without having to go through the school district!

There are so many reasons why EFT is the way for association dues:

- ✓ State associations around the country have seen a coordinated attack on labor organizations and their ability to collect through payroll deduction. Almost a dozen states have seen an outright challenge to their payroll deduction systems so far.
- ✓ Arrange EFT and all future payments are set! Payments will be taken directly out of your bank account on the same day of every month (you choose from 5 available withdrawal options including monthly & bi-monthly). No more going through your school district's accounting system and no more wasting valuable local association time and money collecting dues!
- ✓ Just like with other monthly bills, the funds are transferred with no worry and no extra charge to you. The association dues amount collected is the same as what would have been collected through payroll deduction only it's faster, easier, and no one needs to file unnecessary paperwork through the school district office.
- ✓ EFT places all association business where it should be— with you! No more going through your employer to make sure amounts and paperwork are correct. All association business is done with the association!

Contact your local UniServ office for more information about how you or your local association can participate in the EFT program today! It's quick, easy and once it's done, you don't have to sign-up again!
