Vote No on SF 159:**

- **This legislation would divert public funds to non-public schools, which do not have to admit students based on equity.**
- **Public funds should require accountability and transparency. Non-public schools are not held to the same standard as public schools.**
- **This proposal would spend \$53 million to benefit just 10,000 students if every pupil eligible were to take advantage of the voucher. Especially at a time when our public schools are facing unprecedented challenges, available resources should go to support the more than 480,000 public school students in all 99 counties.**
